

FITS 200 SERIES SPEED-LOC™

- 1" weld-on tip with extra carbide for long-lasting wear life.
- Vertical approach reduces rock pulling and soil throw.

**200-VRT-1040****FITS 410 SERIES SPEED-LOC™**

- Designed to work with the **300-ATM-1031** of the 300 Series Seed Boot System. See pages 64-65 for more details.
- 3/4" weld-on tip, available with carbide (**410-KNF-0801**) or without carbide (**410-KNF-0800**).
- This low disturbance opener is low draft and easy pulling.

**410-KNF-0801 (CARBIDE)
410-KNF-0800****FITS 410 SERIES SPEED-LOC™**

- 3" spread (**410-SPN-0300** or **410-SPN-0308**).
- A larger spread allows for nitrogen fertilizer to be placed with the seed.
- Choose from 1/4" material (**410-SPN-0300**) or 5/16" material (**410-SPN-0308**) for increased wear life.
