### TRIPLE SHOOT PRESSURIZED NH3 + PHOS

- Fits Edge-On Shank, Bourgault PHD\*, Concord\*\*, Morris.
- Fitted with a 1/4" stainless steel tube that applies liquid phosphorus down the center of the seed row.

*For Pressurized NH3 please see your pressurized system dealer for more information on tube sizing and inserts.*

Fig.1

- The 2-1/4" Side Band tip provides you with low draft and soil disturbance while ensuring great seed placement.
- Long-wearing carbide-enforced chrome tip is reinforced where you need it – on the nose and wing.
- Carbide placement provides sharp cutting edges for excellent penetration.
- The welded liquid tube is protected by the carbide tip and runs along the front of the opener to prevent plugging.
- The streamlined holder design combined with the front delivery concept reduces plugging and encourages trash clearance.

\* When installing on a Bourgault PHD use bolt holes pictured in Fig. 1.

\*\*When installing on Concord, spacer plate **680-ACC-0001** is required and sold separately. See page 89 for more details.

**ALL WINGS ON SIDE BAND OPENERS MUST BE POINTING INWARD TO THE CENTER OF THE SEEDING UNIT TO PREVENT PLUGGING WHEN TURNING.**

*For a more detailed view of these openers see page 110.*
